GAINESVILLE, FLORIDA, WEDNESDAY, JUNE 16, 1909

TEN CENTS A WEEK

GAINESVILLE WILL CELEBRATE ON FOURTH

Appropriate Program Will Be Arranged for Occasion---Low Rates On All Roads.

Saturday, July 3, will be a glorious day for the citizens of Gainesville and all the surrounding territory.

A representative meeting of the citizens and business men was held Tuesday afternoon at the offices of the Dutton Bank, when it was easily seen that sufficient funds could be raised to defray all expenses of getting up a gala day and entertaining the visitors.

Major Thomas was elected chairman and W. E. Baker secretary of the meeting, which proceeded to business after some discussion was engaged in as to the late day in which they had commenced the arrangement of a program and entertainment.

Col. Baker made a talk and stated that it would be unnecessary for the citizens here to ask for special service over the roads, for the manner in which the trains would be running at the time of the celebration would meet every requirement, and the thing now to do was to arrange the program and solicit money to defray expenses of the day's entertainment.

The amusements will consist of automobile races, sack races, greasy pole climbing, and other minor attractions, to end with a game of ball at the park in the afternoon, and probably fire works in the evening.

Good prizes will be offered, and in

all the day will be a scheme to induce a large percentage of the citizens from the western part of the county to come here and get better acquainted with the business men and the citizens generally, for under this new service Gainesville will appeal to them more for their purchases in the future.

An effort will also be made to secure additional low rates, and the merchants will also be asked to stand part of the fare, provided such an amount is traded with them during the day.

Cols. W. E. Baker and Ferdinand Bayer, who have already done some of the soliciting at the suggestion of the meeting, have met with remarkable success, and while only a few business men have been approached they have responded liberally, and the citizens have also agreed to help furnish the necessary funds to get up a first-class program for the day.

Ferdinand Bayer, W. E. Baker, B. M. Tench, Phillip Miller and J. D. Gardner have been named as the committee to solicit subscriptions and assist in getting up the entertainment for the day.

Another meeting of the citizens will be called within the next few days, if it is deemed advisable to further assist in getting up the day's program.

STREET DUEL ENDS MISSISSIPPI FEUD

MEADEVILLE, MISS., SCENE OF RIOTING AND BLOODSHED.

Two Dead, Two Probably Fatally Injured and Three Others Wounded.

Militia Is Called Out.

MEADEVILLE, Miss., June 15.—Two men are dead, two were perhaps fatally wounded, and three others slightly injured in a bloody street battle yesterday afternoon, waged by parties to a bitter feud that had been previously marked with tragedy. As a result of the affair, feeling here runs high, and State troops were rushed to Meadeville from Brookhaven last night to guard against a possibility of rioting. Those killed in the affray were Dr. A. M. Newman, clerk of the chancery court of Franklin county, and Silas G. Reynolds. Dr. Lenox Newman, a son of one of the slain men, is believed to have been fatally injured, and Herbert Applewhite, an attorney, may not recover as the result of his wounds. Emmett Newman, another son, was shot in the leg. The three were taken to Natchez tonight for medical attention, after having been formally placed under arrest. Two men named Boyd and Parr, alleged to have been involved in the affray, were slightly wounded, but escaped, and have not been captured.

L. P. Pritchard, a brother of Cornelius Pritchard, whom Dr. Newman killed several weeks ago, was arrested and charged with complicity in the tragedy.

The killing of Pritchard by Newman was the first bloodshed to mark a feud that had existed between the two men, relatives and friends, for months. This bitter factionalism had its inception in a political campaign in which Newman and Pritchard were opposing candidates.

Newman was tried a few weeks ago for Pritchard's murder, and was acquitted. This served to arouse even more bitter feeling among the relatives and friends of Pritchard, and the Newman family and faction. Today's fight occurred almost on the same spot where Pritchard was slain. Apparently Newman was first fired upon as he was passing the Butler building in his buggy. The shot came from one of the rooms on the second floor of the building. It failed to take effect, and Newman, jumping from his buggy, rushed to the front of the building, drawing his pistol, it is asserted, in the meantime.

It is claimed that as Newman reached the sidewalk he was attacked by Reynolds and Applewhite, sons of Dr. Newman, who were nearby, rushed to the scene and engaged in the duel.

Numerous volleys were exchanged, but it is apparently a matter of doubt who fired the fatal shots.

The streets of Meadeville are being patrolled by the troops. At a late hour last night the situation was seemingly quiet, and it is not thought that further bloodshed will occur.

Report From Brookhaven.

BROOKHAVEN, Miss., June 15.—It being feared that serious rioting would result in Meadeville, county seat of Franklin county, Mississippi, as the result of a bloody street duel there late last night, in which two men were killed and others are reported injured, the Brookhaven company of militia left at 6 o'clock for the scene by order of Governor Noel.

District Judge Wilkinson and District Attorney Wall left here in company with the militia for the purpose of officiating at a special session of court if the situation demands it, and to aid in the preservation of order.

Those killed in the affray were Dr. A. M. Newman, chancery clerk of Franklin county, and Silas Reynolds. Herbert Applewhite, a lawyer and

NEGRO DIES OF WOUND INFLICTED BY SOLDIER

Camp Bryan the Scene of Shooting Which is Claimed to Be Accidental.

The Jacksonville Metropolis of last Monday says:

"Willie Parnell, a negro employed about the camp of the Starke, Fla., company at Camp Bryan, at Black Point, near this city, where the State troops are holding an encampment, died at 3:30 o'clock Saturday afternoon at Brewster Hospital from a gunshot wound, said to have been accidentally inflicted by a member of the company, a young man named Wills, son of Judge Wills of Starke, Fla.

"Parnell was shot on Friday night, and brought to the hospital, where he died without making any statement. Although the shooting was evidently seen by a number of State militiamen, no statement could be secured as to the exact manner in which the accident, if it was an accident as supposed, occurred. Parnell was hit in the stomach, and every effort was made at the hospital to save his life.

one of the principals, was seriously wounded.

The tragedy is thought to have been a direct result of the killing of Cornelius Pritchard by Dr. Newman seven weeks ago, and Dr. Newman's acquittal recently on the charge of murder.

The feeling between Applewhite and Newman is said to have been very bitter. On several occasions it is reported Newman had ordered the attorney from the chancery clerk's office. Applewhite was wounded in the Newman-Pritchard encounter.

The encounter, from the meager facts known, was fiercely waged, and the lives of numerous bystanders were jeopardized.

To the Public.

You are invited to attend a social at the Jonesville school house Thursday night, June 24th, for the purpose of enjoying yourselves and at the same time help our church in its toll upward.

As is known by those interested, the Jonesville church is being rebuilt and is consuming quite a little sum of money and with the assistance of those present at the social we will help the great cause. Come. A MEMBER.

Appeal Filed in Great Naval Stores Battle

NEW ORLEANS, June 15.—Another chapter was added to the record in the so-called "turpentine trust" prosecution yesterday, when officials of the American Naval Stores Co., recently convicted in the Federal Court in Savannah, on the charge of entering into a conspiracy in restraint of trade, filed appeal in the United States Circuit Court of Appeals here.

The appellates are E. S. Nash, president; Spencer P. Shotter, chairman of the board of directors; George M. Boardman, treasurer, and J. F. C. Myers, vice-president of the company, and Carl Moller, general manager of the National Transportation and Terminal Company, at Jacksonville.

The assignment of errors upon which the appeal is based contains 13 allegations, among which are various exceptions to the charge of trial

"Justice E. E. Willard of this city, when apprised of the negro's death, impaneled a jury composed of the following men: H. I. Chambers, J. A. Hewlet, J. H. Morton, E. J. G. McLaurin, H. E. Lee and L. F. Brothers. Deputy Sheriffs Frank and Ben Jones were sent to Camp Bryan to make an investigation of the shooting and subpoena witnesses for the inquest, which will be held on Wednesday morning at 11 o'clock.

"The body of the dead negro was turned over to the undertaker, and was shipped to his home at Starke last night. Young Wills has left the camp, according to the officials here, and has gone to his home in Starke, where, it is understood, he is a deputy sheriff. Sheriff Bowden has notified the Starke authorities. Young Wills will be arrested and held pending the investigation of the case. Should the jury find that the shooting was accidental after hearing the evidence, young Wills will be released."

PRESIDENT OF BRAZIL DIED AT RIO JANERIO

INFLUENZA DEVELOPED INTO MORE SERIOUS ILLMENT.

RIO JANERIO, June 15.—Dr. Alfonso Moreira Penna, president of Brazil, died yesterday. He was stricken with influenza on June 2, and although quite seriously ill for a time, improvement was noted on June 6, which continued until Saturday. The president then suffered from a relapse and there were marked pulmonary and gastric symptoms. Sunday the attending physicians were forced to the conclusion that the case was hopeless and notification of this was sent by minister of the interior to the vice-president of the republic, Nilo Peçanha, and various other government officials.

The doctors succeeded in prolonging life for some hours but the president passed away after being unconscious for a considerable time. The vice-president assumed the executive powers yesterday evening in the presence of the minister, senators and deputies and representatives of foreign powers.

TRIAL OF CALHOUN ON GRAFT CHARGES

PROSECUTION CLOSED IN SAN FRANCISCO CASE.

Prosecutor O'Hara Makes Strong Statement in His Closing Address to the Jury.

SAN FRANCISCO, June 15.—John G. O'Hara, assistant prosecutor in the bribery trial of Patrick Calhoun, had submitted one-half of the argumentative case against the president of the United Railroads yesterday, when his address before the jury was concluded at the end of an entire court session.

In reviewing Mr. Ford's alleged connections with Abraham Ruef and the bribery of the supervisors in 1906, he said:

"Why did not Tirey L. Ford come here and hold up his right hand and swear that he was not guilty of paying this fund of \$200,000 to Ruef?"

"This is assigned as misconduct by the prosecution," interrupted Stanley Moore of the defense. "Yet he knows that Mr. Ford has been here and could have been called by his side as a witness."

A spirited argument involving the

legal right of the prosecution to make such reference ensued, and Judge Lawler, disregarding repeated protests, directed Mr. O'Hara to proceed. Mr. O'Hara continued:

"There is nothing courageous or chivalrous in the crime which this record has exposed. What does it all amount to? Simply that Patrick Calhoun wanted an overhead trolley franchise; that it meant more money in his pockets to secure one; that the earthquake and fire gave him the opportunity and that he promptly made his arrangements with Abraham Ruef. Ruef in return made his arrangements with his tools, the supervisors.

"Why did Mr. Calhoun offer to take this overhead project to the supervisors after he had failed to win the support of committees of business men? Was it not because he knew, as all other men know, that the red flag of the auctioneer was flying over the city hall and that Abe Ruef was ready to sell any and all of the privileges that the city owned?"

Another Picnic Party.

Mrs. C. V. McKinstry, Misses Annie McIlvaine, Allie Taylor, Maggie Belle Taylor, Jane McKinstry, Harvey Rock and Dr. Fred Craigen formed a jolly party of Gainesvillians who visited Worthington on Monday to enjoy the day. They report a most excellent time and speak in the highest terms of the fine manner in which the springs are managed.

Work on Extension Is Progressing Rapidly

KEY WEST, June 15.—The track-laying gang has already completed their work across Pine Key and they are now laying the iron at a rate of a mile a day. The road bed is ready for the track down to Niles channel, there they will have to wait until the fill recently made hardens out. While waiting for the fill across the chan-

nel to get into condition the gang will go back over the track already laid and put in siding and spurs where needed. Once they are across Niles channel they will bring the road toward Key West a mile nearer each day. The construction train should reach Key West not later than the first of October.

CAPT. BLANDING AND HIS MEN RETURNED

BROKE CAMP EARLY TUESDAY MORNING FOR THEIR HOMES.

Well Pleased With Their New Site, Located Thirteen Miles West of Jacksonville.

Capt. J. W. Blanding, together with his company of forty-seven men, returned to the city Tuesday, a tired but happy crowd of soldiers. They have been off for the past ten days attending the State encampment.

Capt. Blanding states that it was one of the most pleasant gatherings the boys have had for a large number of years, and that everything passed off very pleasantly at the State camps, nothing occurring to mar the happiness of the crowd that had been called together.

In all there were two regiments located at Camp Bryan, and two fine regimental bands were present to furnish music for the boys during the day. Located on a high bluff overlooking the St. Johns river made it an excellent location for the soldier boys to get good hard work.

Two practice drills were held daily during the encampment, about two and a half hours each morning and one hour in the afternoons, which gave the boys a great deal of good active exercise and not so much time for the numerous pranks and jokes that are always indulged in on occasions of this nature.

It is estimated that there were about 1,300 men in all assembled together from every section of the State, which made it rather a large but happy family. Being easily accessible to Jacksonville a large number of visitors were present at all times, and excursions were run via boat to and from the city at only 20 cents for the trip, while automobile and carriage parties were numerous.

GOING ABOUT IN CHINA.

Useful Sedan Chair in the Crowded, Noisy Streets of Canton.

There are but two ways to go about Canton—on foot or in a sedan chair. The streets are from four to eight feet wide, the average being probably about six feet, and wheeled vehicles are out of the question. Even the jinrikisha cannot be used here. If you try to make your way on foot, the density of the moving masses renders progress almost impossible, and rowdies and pick-pockets are numerous, so that the best plan is to take a responsible native guide and chair.

The chairs are carried by two, three and sometimes four men, according to the weight of the passenger. The two bamboo poles by which the chair is supported are about eighteen feet long and are joined at the front and rear ends by a crosspiece. After you have taken your seat the coolies raise the ends of the poles to their shoulders and are off at a dogtrot, only interrupted by a "congestion of traffic," which occurs very frequently.

It is surprising to see how rapidly they can go through the crowded streets. The whole line of chair carriers are yelling all the time, as are other people who are carrying burdens, for as there are no carts in use the entire merchandise of the city is transported in the same manner, not by chairs, of course, but slung on poles carried across the shoulders.

The noise resulting from the simultaneous shouting of every one in sight, both in front and in the rear, for the stream is flowing in both directions, is enough to make one wonder if the long expected riot has begun.—Denver Post.

To Transfer Printing.

Anything printed on paper with ordinary printer's ink can be transferred to a clean sheet of paper in the following manner: Take three drams of common yellow soap and dissolve it in one quart of hot water. When cool add one and a half fluid ounces of spirits of turpentine. Put all in a bottle, cork it and shake well together. Take a sponge or soft brush and apply some of the solution to the printed surface. Let it soak for a few minutes. Lay it face down upon the paper on which the transfer is required and press both together evenly between the leaves of a thick book placed under weights. In a time varying from half a minute to several hours, according to the newness of the printed original, it will be transferred in reverse.

Monkey and Goat.

Monkeys are more renowned for mischief than for kindness, but even monkeys can be benevolent. M. Mouton records the doings of one in Guadeloupe that surely seemed to merit that reputation. This monkey had a friend in a goat that went daily to the pasture. Every night the monkey would pick out the burs and thorns, sometimes to the number of 2,000 or 3,000, from the goat's fleece, in order that the animal might lie down in peace. On coming in from the pasture the goat regularly went in search of his light handed friend and submitted himself to the operation. Strange to say, the tricky instincts of the monkey reassured themselves after the pricks were removed. He would tease the poor goat unmercifully, plucking his beard, poking him in the eyes and pulling out his hairs. The goat bore it all with patience, perhaps regarding it as only a fair price to be paid for the removal of the thorns.—London Standard.

A Sad Case.

An Atchison man has lain in an unconscious state ever since 10 o'clock last night. Everything has been done to arouse him today, but all efforts are unavailing. His friends are greatly alarmed. They fear he may never regain consciousness. It seemed that yesterday evening right after dinner the man picked up his hat, put on his overcoat and, although his wife was sitting right in the room, she did not say, "Where are you going?" He walked out of the house. At 10 o'clock in the evening the man returned. He walked into the room where his wife sat and took off his hat and overcoat. She smiled at him pleasantly and did not say, "Where have you been?" The man fell unconscious to the floor.—Atchison Globe.

What Thieves Won't Steal.

The last thing the woman did before leaving the flat was to put four rings in the clock on the mantel. "So thieves won't get them," she said.

"I should think that would be simply inviting thieves to run away with them," said her friend. "That is a handsome clock, and thieves like handsome clocks."

"They do," said the woman, "but they never will steal this clock. It ticks too loud. No wise thief will run away with a clock that goes like a thrashing machine. It isn't the alarm about his person that he is afraid of, for he can stop the clock, but the occupants of the flat are likely to return before he gets safely away, and if a loud ticking clock is gone they will miss it the minute they step inside the door and maybe give him a hot chase for his plunder."—New York Press.

JUST TIME.

The Wonderful Part It Plays in the Earth's History.

Truly it is hard for us to realize what a part time has played in the earth's history—just time, duration—so slowly, oh, so slowly, have the great changes been brought about! The turning of mud and silt into rock in the bottom of the old seas seems to have been merely a question of time. Mud does not become rock in man's time nor vegetable matter become coal. These processes are too slow for us. The flexing and folding of the rocky strata, miles deep, under an even pressure is only a question of time. Allow time enough and force enough and a layer of granite may be bent like a bow. The crystals of the rock seem to adjust themselves to the strain and to take up new positions, just as they do much more rapidly in a cake of ice under pressure. Probably no human agency could flex a stratum of rock, because there is not time enough even if there were power enough. "A low temperature acting gradually," says my geology, "during an indefinite age would produce results that could not be otherwise brought about even through greater heat." "Give us time," say the great mechanical forces, "and we will show you the immobile rocks and your rigid mountain chains as flexible as a piece of leather." "Give us time," say the dews and the rains and the snowflakes, "and we will make you a garden out of those same stubborn rocks and frowning ledges." "Give us time," says Life, starting with its protozoans in the old Cambrian seas, "and I will not stop till I have peopled the earth with myriad forms and crowned them all with man."—John Burroughs in Atlantic.

NEW YORK ACTRESS

Parisian Sage Made Her Hair Grow Two Inches in Seven Months.

Of all the women in the world, an actress most ardently desires beautiful and luxuriant hair. And when her hair begins to fall out she becomes anxious, and intelligently seeks for a preparation that will stop the havoc, grow new hair and give life and beauty to the old.

Joan Sawyer, a clever, handsome actress, has this to say of Parisian Sage:

"To whom it may concern: Have tried most every hair tonic available, and at last Parisian Sage was recommended to me, and, as a last recourse, used it to my entire satisfaction. My hair has stopped falling, dandruff stopped, and my hair has grown two inches in the last seven months. It is the best and only sure cure for thin and short hair I know."—Joan Sawyer, 59 East 93rd street, New York City.

Parisian Sage is the scientific hair restorer that has created such a sensation since its introduction into America about two years ago. It is such a quick-acting prescription that every agent who sells it will guarantee it to cure dandruff, stop falling hair, splitting hair, and itching scalp in two weeks, or money back.

It is the most delightful hair dressing in the world, and is highly praised by society women and actresses who have luxuriant and glorious hair.

It will turn harsh, lusterless hair into soft, silky and luxuriant hair in a few days.

W. M. Johnson is the agent for Parisian Sage in Gainesville and he sells it for 50 cents a large bottle, the largest bottle for the price on the market.

Women's Work and Infant Mortality.

In eight industrial towns, where the proportion of married women of child bearing age at work in the factories was 43 per cent, the infant mortality rate for ten years averaged 182 per 1,000. In eight industrial towns of a different type, where the proportion of married women at work was only 3 per cent, the infant mortality was only 150 per 1,000. The excessive rate in the first group is not due to bad wages nor to bad conditions, but to the absence of the mother.—London Post.

MELON MOVEMENT IS NOW AT ITS HEIGHT

NOT CARS BUT TRAINLOADS MOVING FROM THIS SECTION.

From Three to Five Trains Daily Over the A. C. L. and About the Same Number on the Seaboard.

The melon and cantaloupe movement from this part of Florida is now at it highest, for nearly all sections are shipping this fruit with fine results being obtained.

It has long since passed simple carloads, and from three to five extra melon trains are run each day over the A. C. L. from Ocala to this city, while it is about the same ratio over the Seaboard, the greater part of this fruit coming from the Evinston and McIntosh sections.

From Gainesville proper a large movement is now on, and the Gainesville Melon Growers' Association handle from this city an average of five cars of cantaloupes daily, securing good prices for them before they are shipped from the city.

Williston and all points along the line of the Seaboard which ship through this city have finished up their crop with the exception of the melons, and this is now keeping them very busy.

There was not as large an acreage of melons planted here this season as formerly, and the weather having cut them far short the crop will be exhausted within a very short while.

DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in this vicinity.

Can Gainesville residents demand further proof than that contained in the following testimonial?

Oscar Osterman, of Starke, Fla., says: "I give Doan's Kidney Pills my highest recommendation as they proved of more benefit to me than any other remedy I had previously used. I suffered from kidney trouble for some time. The kidney secretions were too frequent in passage and I was forced to arise from six to eight times during the night. I also had backache and was bothered by a pain through my loins. I finally procured Doan's Kidney Pills and they soon helped me. By the time I had taken the contents of two boxes, the backaches and pains entirely disappeared and the passages of the kidney secretions soon became regular. I now feel fifty per cent better than before in a long time."

ECLIPSE OF THE SUN.

It Will Occur Next Thursday About 6 P. M. in This Section.

A partial eclipse of the sun is scheduled for the United States and in Gainesville, the eclipse will be in the nature of a matinee performance, beginning at different hours in the afternoon of that day, according to what portion of the country one chances to inhabit at the time.

In Jacksonville, the eclipse will begin shortly before sunset, and old Sol will gradually cover up as he sinks below the Western horizon, finally doing his daily disappearance stunt as the eclipse reaches its most advanced stage. Along the Pacific coast the natives will be treated to a longer exhibition, as the eclipse starts before 4 o'clock there and continues until after 5, when the last vestige of shadows clear the face of the luminary.

The solar eclipse, as viewed in Gainesville, will begin so late that it is likely that none of the pretty little phenomena usually attending such an event will be observed. "One of the most interesting of these," according to a forecaster, "is the changing form of the little sun images cast upon the ground through interstices in the foliage. As the eclipse progresses the dots of light change from round to a diminishing crescent, and while, to the unprotected eye, the sun seems blazing away as usual, a soft cooling haze seems to be getting into the air, testifying to the partial interruption of heat and light by the invading moon."

REAR END COLLISION ON EXCURSION TRAIN

TWO PASSENGER COACHES BADLY DAMAGED IN WALDO YARDS.

Several Passengers Slightly Cut With Glass and a Number Receive Bruises by Accident.

The Fernandina special excursion train which left Gainesville about 8:30 yesterday morning happened to an accident at Waldo which delayed them for several minutes and badly bruised up a number of the passengers.

The accident was caused by the brakes sticking on the train and the engineer in backing up ran into a freight train.

From what could be learned, the train that was backing up was running at a considerable rate of speed, as it demolished two of the passenger coaches, shaking up the occupants pretty badly. Nothing serious is reported, however.

Following the accident, the crew picked up three extra coaches and the train was soon on its journey to the Island City with a delayed but happy crowd.

NEW MATERIAL ARRIVES.

Watson Has Joined the Bunch of Twirlers in Gainesville.

Several new players to the Oak Hall aggregation arrived here Sunday and have since been hard at work practicing with the boys that all may be in readiness for the games that will commence next week.

SURE CATARRH CURE

Brings the Forests of Pine and Eucalyptus to Your Home.

Germs cannot live when Hyomel (pronounced High-o-me) is used. You just breathe in this soothing yet most powerful antiseptic air and relief is immediate. It is exactly the same air as you would breathe in the forests of pine and eucalyptus of Australia where catarrh or consumption was never known to exist.

If you have catarrh and are constantly embarrassed because you must hawk, spit and snuffle, surely you will give Hyomel the attention it deserves, when J. W. McCollum & Co. will guarantee this pleasant remedy to cure all this distress and humiliation, or will give you your money back. Hyomel kills catarrh germs in five minutes. It stops hawking and snuffing and makes you feel like a new man in a week. It is the surest and most satisfactory catarrh treatment known and gives comfort and relief to consumptives.

A complete outfit, including inhaler, costs but \$1.00, and extra bottles, if afterward needed, cost but 50c. A few minutes' time each day is all you need to quickly cure the most chronic case. Hyomel is sold by leading druggists.

MI-ONA Cures Indigestion

Augusta 5, Savannah 2.
First game—Chattanooga 6, Columbia 5.
Second game—Chattanooga 2, Columbia 0.
Charleston 2, Columbus 2. Called a tenth, rain.

SEABOARD HAS LARGE CROWD.

Nearly Four Hundred Leave Here for the Beach Tuesday.

That Amelia Beach is a popular place is evidenced by the large number of excursionists who left this city Tuesday morning on the Seaboard special for that place.

The train, which was in charge of Conductor Harvell and Engineer Barksdale, had about 900 people on board when it reached this city, and there were nearly four hundred tickets disposed of at this place, which gave them and their twelve coaches all that could easily be accommodated.

Returning the train left Amelia Beach at 4:30 and arrived last night about 11 o'clock, with the usual number of "rummies" well filled, this being principally among the colored element.

When the leading silver manufacturing concerns report that business is back to normal it is useless for the pessimist to say prosperity is still a good ways off.

W. J. Bryan will be a candidate for the U. S. Senate in 1911, says the editor of The Commoner. The Democratic party can now draw the earliest breath in twelve years.

Judge L. J. Reeves of West Florida in all probability will be a candidate next year to succeed Senator Tallahassee. Judge W. A. Blount is also prominently mentioned as a candidate.

It seems to us that it is high time all owners of property in the sewerage limits of this city were made connect their residences and places of business with the sewerage system.

Capt. R. M. Hudson of Orlando died suddenly at Telluride, Colo., on June 2, where he was superintendent of a large mine. He was 41 years of age, and a graduate of the old East Florida Seminary. He was familiarly known to his class mates as "Jack," and was popular with all who enjoyed his acquaintance.

Hon. Monroe Brown, formerly of Ocala, and a candidate for Governor in 1904, has opened a campaign in behalf of removing the State Capital from Tallahassee to Jacksonville. The capital may not be removed from Tallahassee during the next ten years, but ere another quarter of a century rolls round it will certainly be located in a more central place, convenient to the people of the State.

The Legislature of 1909 is almost universally condemned by the State press as a "do-nothing" body. Well, what could be expected of a body the majority of whom were absolutely under the influence of and dominated by Broward, Barrs, L'Engle, and such ilk? It was rule or ruin with them, and had it not been for a well organized conservative minority in the Senate which outgeneraled this "anarchistic" majority, in many instances, Governor Gilchrist would have had to exercise the veto power on many more drastic and freak measures than he did.

It did not take Governor Gilchrist long to find out how the newspaper men of Florida stood regarding the act requiring them to tag as "advertisement" all articles published as news matter which had been or was to be paid for. If the measure had referred solely to political matter there might possibly have been some merit in it, but in the shape in which it passed the Legislature it was the meanness of all the freak legislation proposed at the recent session, and emanated from the meanest man in Florida. Please bear in mind that when we say "emanated" we have no reference to the introducer of the bill, for we well know who was the real author of the iniquitous measure.

THE PRESENT TAX LAWS.

That the present tax laws of Florida need a decided change, says The Pensacola News, no better proof can be offered than the following case which has come under the observation of The DeFuniak Breeze:

"Under our present tax law the Jackson Lumber Co., who allowed their lands to be sold for taxes last year, and which were certified to the State because no one would bid on them, will save about \$12,000 by letting the State hold the certificate for two years and then redeem them, and of course the State and county will lose that amount. Because these lands were certified to the State they will not appear on the tax books this year or next if not redeemed, and so escape taxation altogether. It is true that the Jackson Lumber Co. will have to pay 25 per cent interest this year and 8 per cent next year on the face of the certificates, and 50 cents to redeem each parcel, but this will not amount to more than one-fourth of the taxes for the two years. It is about time we were getting a new tax law."

We would refer The DeFuniak Breeze and The Pensacola News to Section 573, General Statutes of Florida.

In the redemption of lands sold for taxes it is necessary to pay all omitted years at the last assessed valuation, with interest at the rate of 25 per cent for the first two years and 8 per cent thereafter.

The Florida Legislature has passed a law prohibiting the manufacture or sale of intoxicants within the confines of that State. Evidently public sentiment has undergone a mighty change in that sun kissed land of flowers and zephyrs since the days when the editor of The Star was struggling with the patrons of his newspaper in what at that time seemed a vain effort to convince them of the errors of booze drinking. Even in those days there was a strong temperance sentiment but it was not found in the class which represented the people in the halls of the State Legislature. We congratulate our old State on her moral progress but fear there will be a great boom in the "moonshining" industry.—Elmer J. White in The Whitehorse (Yukon) Star. Our old friend and former partner is mistaken as to the law being in force. The Legislature simply submitted the question to the people, who will vote upon it in November, 1910, and if the amendment to the constitution receives a majority vote at that time the law will take effect on July 1, 1911. There is much truth in what you say, Bro. White, as to change of sentiment since you left Florida in 1888, but pray tell us in what way, when and where, were you a "booze fighter" during your residence in the land of flowers.

Why do intelligent white men engage in the illicit sale of liquor in a "dry" county? Three white men and several negroes were up before the session of the criminal court this week, charged with selling liquor in a dry county. These people can't possibly make anything out of the business in the long run; it is absolutely impossible for them to sell enough booze illegally to pay the wholesaler, the expense and the inevitable fine. If the writer had the making of the laws, he would impose a fine for the first conviction for selling liquor, and for the second offense commit the party convicted to the insane asylum.—DeLand News.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address,

Governor Gilchrist has approved an act of the recent Legislature which makes it unlawful for any person, persons, firm or corporation to pay the poll tax of another, and providing a penalty for any tax collector to receive payment for such poll tax from any person other than the one to who the same is assessed. He has also approved the new primary election law, which requires candidates to make sworn statement of all expenditures in connection with their candidacy for nomination for office, and prohibiting candidates from contributing to any charitable institution or church, etc. It is one of the most drastic measures in many other respects that could be enacted, and if it does not result in the abolition of the primary system of nominating officers, then nothing else is calculated to do so. The new law will have to be seen to be "appreciated" by the voters.

A few editors in the State have very greatly misconstrued a reporter's account of the scene attending the sentencing of Bexley and Osteen at Gainesville a few weeks ago, and are indulging in some uncalled-for criticism. From the reporter's statement that Judge Willis, in passing sentence, was "visibly affected," our editorial brethren have worked themselves up to the pitch of accusing the judge of making a show of maudlin sentiment. Nothing could be farther from the facts in the case. Judge Willis is a man of fine fiber. He had known the family of one of these young men from his own youth up. The memory of all these years of acquaintance and association naturally came into his mind. He regretted that the necessity had arisen for him to sentence the young man to penal service for a heinous crime, and said so. That is all there was to the incident.—Starke Telegraph.

The ordinance against selling goods on the Sabbath now being enforced in Gainesville is nothing more nor less than class legislation. You can buy cool drinks, cigars, etc., at a hotel or restaurant, but you cannot buy these same articles at a cool drink establishment or drug store. We do not believe that this ordinance would be upheld by Judge Willis, and our advice to those against whom it so grossly discriminates is to make a test case of it.

Today's heresy is oft tomorrow's truth.

A MIGHTY FORTRESS.

The Famous Rock of Gibraltar and Its Armament.

A GUN IN EVERY CREVICE.

The Place Stored With Food and Munitions of War to Stand a Siege of Seven Years—An English View of the Cannon Studded Stronghold.

"An enemy's fleet could be sent to the bottom in ten minutes before getting within five miles of Gibraltar. Not even a torpedo boat could succeed in entering the bay unobserved on the blackest night." That sums up the opinions of the most eminent naval experts as to the impregnability of the world's greatest fortress.

But disappointment awaits the sightseeing visitor. The rock, though barren, is covered with luxuriant vegetation—not a fort prominent, not a gun to be seen even with the most powerful glasses, no discernible ammunition magazines, no strongholds, only a peaceful, prosperous harbor and a sleepy, straggling town.

It is night, and the maneuvers are on. Swift playing searchlights transform the bay into a sheet of shimmering silver upon which are seen majestic British warships and elongated flying shadows, the torpedoes. Guns answer guns out of every conceivable crevice and corner, blending in one deafening uproar, while scores of shells plow the water for miles around.

Sentries are everywhere; infantry parties crouch in the shadows; hundreds of gunners stand ready behind hundreds of guns in these mysterious labyrinths hewn out of the solid rock—"the galleries." The vicious barking of Maxim guns gives contrast to the deep toned baying of these mammoth pieces of ordnance, the mere report of which cracks stone roofs and bursts doors and whole windows. Could any fleet live through the murderous hail of gigantic shells?

Gibraltar never sleeps. By day and night two perfectly equipped signal stations, proudly flaunting Britain's flag of ownership, unceasingly sweep the seas around to a distance of fifteen miles on a clear day, instantly reporting the coming and going of each vessel. Sentries guard all the prominent forts, magazines and gateways; gunners sleep beside their guns; engineers are ever ready beside the powerful searchlights.

Modern "needle" guns, the finest in Europe, are installed on all the most prominent points. They are unreachable from the sea, even as they are

undiscernible, owing to the skill with which they are painted and draped to match the surrounding vegetation, while huge screens drop automatically before them as each shell is fired. They have a range of fifteen miles and could drop shells on Ceuta, in Africa, opposite, quite comfortably. One gun weighs 110 tons and is capable of throwing a shell weighing three-quarters of a ton. In that marvel of engineering under great difficulties, the galleries, are concealed guns for every day in the year.

These galleries are divided into three sections, entry to which is guarded, while one is closed even to high officers, containing preserved stores, munitions of war, rainwater (for Gibraltar has no springs) and a complete condensing plant—all calculated to outlast a siege of seven years.

The firing is the most mathematically perfect imaginable. The surrounding waters are mapped out into squares, upon which certain guns are kept ready trained, so that it is almost impossible to miss. During practice targets are towed across the bay, the object being to hit the water a few yards in advance of them.

Although the sentries have now been reduced, a few years ago 158 were needed daily, the most important point being the north front, where English sentries face Spanish sentries. But the mere pressure of an electric button by the officer of the guard would cause a miniature earthquake on the neutral ground. —Cassell's Saturday Journal.

Haggis as the Scotch Make It.

To make haggis take the heart, tongue and small liver of the sheep, one pound of bacon, four ounces of crumbs of bread, the rind of one lemon, two eggs, two anchovies (sardines may be used), a quarter of a teaspoonful of pepper and two teaspoonfuls of salt. Chop the heart, tongue, liver and bacon, mix thoroughly, add the breadcrumbs, the anchovies, chopped fine; the lemon rind, grated; then the pepper and salt. Beat the eggs and pour them over. Pack this into a kettle or mold, cover and boil or steam continuously for two hours. Turn it on a dish and serve very hot.

THEATRICAL COSTUMES.

The Man Who Supplies Them Must Be Artistic and Well Read.

An extensive library is an absolute necessity to the theatrical costumer. At the head of every theatrical costuming establishment there is a man of education, experience and genuine artistic ability whose business it is to know what is needed and how to get it. If "The Prince of India," "Ben-Hur" or "The Darling of the Gods" is to be produced he must map out the lines on which the costuming is to be done, and those lines must be absolutely accurate. There is a wide difference between the French costumes of Napoleon's time and those worn by Jeanne d'Arc and her friends. The chief designer must know it and act on his knowledge. At the time Custer fought his last fight the United States army—cavalry and infantry—was outfitted in a peculiar manner that has long since passed away. If the play deals with American army life of that period the costumes must show it, for it would never do to have the critics "roast" the piece because the producers were ignorant of the thing produced. The man at the head of the costuming department must either be conversant with all countries and all periods of history or he must know how to become so with decided alacrity; hence the costumer's library. —New Orleans Times-Democrat.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Early Psychotherapy.

In the Epistle of James we find the early Christian rule of psychotherapy. It was adopted by the early church and for many centuries was a rule of faith and practice in the Christian church in all its branches. It is still a rule of conduct in some of the older churches, and some leaders in churches where the rule has lapsed begin to plead for its revival and for the assumption by the church of what are called its legitimate powers. St. James said: "Is any sick among you, let him call for the elders of the church, and let them pray over him, anointing him with oil in the name of the Lord. And the prayer of faith shall save the sick, and the Lord shall raise him up, and if he have committed sins they shall be forgiven him."—Christian Register.

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Colic, Cholera and Diarrhoea Remedy is that it cures. Sold by all druggists.

Taken Literally.

Wishing some bushes removed from his garden, a gentleman instructed his gardener to pull them up by the roots. Some time afterward he went into the garden and found the gardener digging trenches round the bushes.

"Why, George," he said, "you must not dig round those small bushes in that way. I am sure you are strong enough to pull them up by the roots."

"Oh, yes, sir," replied the gardener; "I'm strong enough, but I must dig a little before I can get hold of the roots. If you'd told me to pull them up by the branches I could, of course, easily have removed them without digging." —London Strand Magazine.

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

LIVING HORRORS.

Men Made to Look Like Beasts by Chinese Methods.

To transfer a man into a beast would at first seem to be impossible. It is accomplished, however, by the Chinese, to whom nothing seems to be unknown. The skin is removed in small particles from the entire surface of the body, and to the bleeding parts bits of the hide of living animals, bears and dogs, are usually applied. The operation requires years for its full accomplishment. After the person has had his skin completely changed and becomes a man-beast or a man-dog he is made mute to complete the illusion and also deprive him of the means of informing the public he is intended to amuse of his long torture. A Chinese journal, the Hupao, prints a description of one of these human animals exhibited in the Kiangsi. His entire body was covered with dog skin. He stood erect (although sometimes the feet are so mutilated that the beast is forced to walk on all fours), could not utter articulate sounds, rise and sit down—in short, make the gestures of a human being. A mandarin who heard of this monstrosity had him brought to his palace, where his hairy skin and bestial appearance caused quite as much terror as surprise. Upon being asked if he was a man the creature replied with an affirmative nod. He also signified in the same manner that he would write. A pencil was given him, but he could not use it, his hands were so deformed. Ashes were then placed on the ground in front of him, when the man-dog, leaning over, traced in them five characters indicating his name and disgrace. Investigation showed that he had been stolen, imprisoned for years and subjected to long tortures. His master was apprehended and condemned to death.—London Spare Moments.

A CHEERFUL OUTLOOK.

Making It Pleasant For the Studious Traveler.

An English tourist traveling on foot through one of our mountainous regions, studying the people, asked a man whom he met to direct him to a certain cabin at which he had been advised to stay overnight. "Going that?" said the man. "Well, Tom's a first rater, take him just right, but he's mighty queer."

"What do you mean?" asked the traveler.

"Well, it's like this," and the man looked at the stranger in a calm, impersonal way. "He'll be settling outside, most probably, and he'll see you coming. He'll take a good look at you, and if you don't suit him he may set the dog on you."

"If he don't and you get to talking with him and say anything he don't just like he may throw you down and tromp on you. But if you're too careful in your talk, on the other hand, he's liable to take you for a spy and use his gun fast and listen to explanations afterward."

"But it's no use trying to get by without stopping," concluded the man, with evident relish of the prospect he was opening up to the stranger. "If you was to undertake that 'twould be all up with you, for he'd think you was proud and blingetty."

"If you want to come out of the mountain whole, don't go past Tom's cabin without stopping, whatever you do."—Youth's Companion.

YANKEE WIT.

Lincoln Said He Always Admired and Coveted It.

Alban Jasper Conant, the artist, in telling of his experience in painting a portrait of Lincoln said: "Yankee wit was mentioned at one of the sittings, and Lincoln said, 'That is something I always admired and coveted.' Some one said, 'Why, you certainly have the credit of possessing it in large measure.' 'No,' said Lincoln, 'not the genuine. I don't remember that I ever got credit for it but once.' Then he told how, hurrying once through a courtroom, he was ordered by the judge to defend a prisoner accused of assault and battery. A witness was just testifying that the complainant had been fought all over a field. 'On cross examination,' said Lincoln, 'I asked him, 'How large was that field—twenty acres?' 'No,' he replied. 'Ten acres?' 'No.' 'Were there two acres?' I persisted. 'Yes, just about two,' he agreed. 'And you saw him fight this man all over the field?' pointing to the prisoner. 'Yes, sir.' 'Well, sir,' I said, 'did you ever see a fight before that turned out so little to the acre?' The witness admitted, with a grin, that he had not, the judge smiled, and the jury snickered. So, saying that as this crop was so poor it did not seem worth further cultivation, I submitted the case. Some of my friends said it was Yankee wit, but that was the only time I ever got credit for it. I wish I had it."—McClure's Magazine.

HIS VOCABULARY.

It Was Real Literary, According to the Wily Stenographer.

The beautiful typewriter girl puffed out her golden pompadour nervously, says the Philadelphia Bulletin. "My speed 'll increase, Mr. Meer—excuse me, Wellington—my speed 'll increase 30 to 40 per cent every day."

Broker Wellington frowned. The girl had taken his dictation slowly. And in a stern, skeptical voice he said, "How so?"

"It's your new vocabulary that puts me out," she explained. "I had Mr. Meer's vocabulary very pat—as per, 'contents noted,' 'the same'—he only used about 300 words." Her flattering smile warmed the man like a sunbeam. "But you, sir, have a real literary style. 'Beg to submit,' 'our best attention,' 'slump,' 'bullish,' 'hypothesize'—they're all new words to me, and of course I can't rattle them off very fast at first. But just you wait, say, till day after tomorrow. Then you'll see."

"All business men have different vocabularies that their stenographers must get accustomed to, eh?" said the broker.

"Yes, sir; some large, some small." Again her smile flattered him. "Yours is larger than most. I should say it was thirty or forty words larger. Real literary, I call it."

"Miss Hoskins, if there's—er—any supplies you need all you've got to do is ask," said the literary broker fatuously.

Colds that hang on weaken the constitution and develop into consumption. Foley's Honey and Tar cures persistent coughs that refuse to yield to other treatment. Do not experiment with untried remedies as delay may result in your cold settling on your lungs. J. W. McCollum & Co.

PERFECT FLIERS.

Eagles, Vultures and Similar Birds Are in This Class.

It is a fact that those ingenious and daring minds that devote themselves to the solution of the problem of aviation have given no small part of their preliminary study to considering the manner of flight of birds.

A strange result of this investigation is the conclusion, now generally indorsed, that, as a whole, the bird world is not to be regarded as perfect in its attainment of flight. For instance, it is contended by the best authorities that all birds obliged continually to flap their wings—and in this category may be mentioned sparrows, finches, thrushes, crows, etc.—are still in an imperfect stage of advancement.

In the next class, as being a degree advanced, are put such birds as pigeons, swallows, etc., which are able to dart ahead for a space after they have gained a good start by the vigorous flapping of their pinions.

In the third class the birds that may be said to be perfect fliers are the eagles, vultures, albatrosses and similar big birds possessing the ability to rise and fall and sway and soar in the air indefinitely without a perceptible movement of their wings. It is, of course, known to every person of an observant turn that these big fowl are able to soar into the air gradually until at last they disappear from the eye of the watcher, it being almost impossible to detect any movement beyond a slight occasional motion of the tail.—New York Tribune.

A QUICK CHANGE.

From the Desire For Comfort to the Craze For Speed.

Mr. Newcar (about to start on his first trip in his recently purchased motor car, to his chauffeur)—Now, William, I want it thoroughly understood I will not have fast driving. Always keep well under the legal limit—not as close to it as you can. Ten miles an hour is fast enough for me. What I want is comfort, not excitement. Do you understand?

Three days later. "Er—er—William, I must be back to the house by 7 o'clock. This road seems very straight and wide. Don't you think you might go just a little faster without danger?"

Two days later. "William, this dust is very unpleasant. If you could pass that car ahead—it seems to be going rather slowly."

Next day. "Put on a little more speed, William. There's no use in being a crank. This road is too good to lose the chance."

A week later. "Open her up, William! There are no poles within five miles. I'll bet, and if there are who cares? I'm out for fun! Let her zip! Let her zip! This is no steam roller! Let's have some speed!"—Life.

Men Past Fifty in Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy, especially for enlarged prostate gland, which is very common among elderly men. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with his complaint." HOTEL CELLS.

The Difference Between Them and Those of the Jails.

The chief difference between the average hotel cell and the average prison cell, viewed from the standpoint of social psychology, is that one is locked on the inside to keep outsiders out, while the other is locked on the outside to keep insiders in. The occupant of the hotel cell is afraid that something will be done to him or that something will be taken from him by some one who ought to be in a prison cell. That is the theory of it.

"Lock your door and leave your valuables at the office," cautions the obliging innkeeper. "If you had valuables you wouldn't be here," observes the witty prison keeper. That is to say, the question of valuables seems to enter largely into the matter.

It would be great to have a civilization which considered valuable only those things which could not be stolen, such as mental and moral equipment, skill and good fellowship. Then we could be a little more sociable. We could talk to each other without buttoning our coats or feeling for our diamond studs every few minutes. Then the man who willingly secluded himself in a stuffy hotel cell could be locked in and made to stay there on the ground that something terrible was the matter with him.—Success Magazine.

Stomach Troubles.

Many remarkable cures of stomach troubles have been effected by Chamberlain's Stomach and Liver Tablets. One man who had spent over two thousand dollars for medicine and treatment was cured by a few boxes of these tablets. Price, 25 cents. Samples free at all drug stores.

African Elephants.

In portions of Africa the natives believe when a herd of elephants is alarmed and runs away the bulls, if necessary, pick up and carry on their tusks the little ones which may not be able to keep up with the herd. These little ones when first born weigh not more than 200 pounds and of course might readily be carried, as stated. We do not know that any white man has ever seen this, but the natives insist that it is done.—Forest and Stream

CHAS. BLUM & CO.

517-519 W. Bay St. Jacksonville, Florida

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the extremes in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Total Cash Value, \$1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects thereto will be given each of those tying.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for \$100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for \$25 to all other contestants in the race, and will make special arrangements with anyone to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wannee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.

Capt. B. W. Waits of Hawthorn was in town yesterday and made The Sun office an agreeable call.

Iced tea will be served to all of our customers from 4 to 5:30 p. m. today. Saunders & Earle.

Keep your eye on the want ads. There may be something advertised which is of interest to you.

R. D. Medlin returned last night from Hague and Alachua, where he has been looking after his farming interests.

Mrs. J. O. LaFontisee of Hawthorn is here for a few days visiting the family of J. W. McCollum and other relatives.

H. C. Roth has returned from a short trip to Gettysburg, Pa., where he was called to attend the funeral services of his father.

Misses Claire Denby and Eugenia Waterbury of Jacksonville are the guests of Misses Mary and Belle Floyd, East Main street, North.

Mrs. Evans Halle, who has been absent for the past several days visiting friends in the State metropolis, returned to her home here yesterday.

We Are Taking Stock—All crockery and glassware will be sold at great reduction. Some very pretty patterns to select from. Saunders & Earle.

Gus A. Morton, the trucker and business man of Williston, arrived in the city last night from Jacksonville and will spend the day here with friends.

Roy Manasse and Clarence Wertheim have returned from a visit of a week to Memphis, Tenn., where they took in the exercises of the Confederate reunion.

H. K. Johnston of Apalachicola arrived in the city yesterday and will remain here a few days as a guest of his sister, Mrs. Shields Warren. We were glad to grasp the hand of the son of our old friend of boyhood days.

Mr. and Mrs. G. F. Shawl of Alachua have issued cards announcing the marriage of their daughter, Miss Edith, to Mr. Samuel Hampton Register, the happy event to take place at their residence on Wednesday, June 30th, at 1 o'clock.

G. W. Livingston, deputy sheriff of Newberry, was in the city yesterday. He came for the purpose of interviewing States Attorney Rivers in reference to securing witnesses for the State against the negro recently arrested by him charged with killing another negro at Komoko.

If you are not satisfied after using according to directions two-thirds of a bottle of Chamberlain's Stomach and Liver Tablets, you can have your money back. The tablets cleanse and invigorate the stomach, improve the digestion, regulate the bowels. Give them a trial and get well. Sold by all druggists.

N. C. Pettit, formerly of Waldo but who is now engaged in the brokerage business at Tampa, was crossing palms with his Gainesville friends yesterday. He is now looking after some business matters at his old home. There is not a better man in all Florida, and The Sun would be pleased to see him again take up his residence in Alachua county.

The B. Y. P. U. of the First Baptist church will give an entertainment, or social, at the residence of Mr. and Mrs. J. R. Emerson, West Masonic street, Friday evening, June 18th, from 8 to 10 o'clock. A small admission of ten cents will be charged, and refreshments will be served free throughout the evening. An interesting literary and musical program is being prepared and the occasion will no doubt prove a most enjoyable one for all who attend. The proceeds will be used towards State missions.
